Virginia Sommet - New York based, art, urban minorities in Paris and in New York. Anthropology, Ethnology, writings with Nasivism.

Site description: I did the site in three languages: you choose yours and you see an installation with two hundred metal cockrings [in two sizes], sixteen transparent plexiglass tubes, nineteen pink plexiglass tubes. When you are gay, you are acquainted with the cockring (made of metal or rubber), which sustains erection: it is a type of tournaquet. Small size for penis, big size for testicles and penis. Only 20% of the heterosexual population recognizes this object.

The cockring is the emblem of the gay scene. If you click on the different part of the installation, you can read some explanation about my work and some porn texts who will be songs. My work is an attempt to inform mainstream society about urban minorities. Each installation represents an urban tribe. Familiarizing ourselves with a symbol will open our minds.

Site Description: I have built a porno website offering the possibility of being part of a network of people getting sexual pleasure out of other people's interaction using a cellular phone that receives in-coming calls to be stimulated with direct vibration of the phone in the vagina and also stimulates the person who wishes to look "voyeur" the sexual activity through a web cam. It mocks the way porno is offered and at the same time explores sexual/private issues in public getting orgasms with the help of thousands of unknown people through internet, as well as exposing the most intimate parts of your Melody in public through the web cam. # Snow Blossom House

Curator's note by Anne-Marie Schleiner  
<http://www.opensorcery.net/snowblossom/>

Lovely, cute, queer, angry and mischievous KISS dolls unite. Squidmen and women of hentai games join your brothers and sisters. Follow the way of the strawberries. To play is the answer. To change clothes is the method. Foreplay ist alles. To transgender, to overlay, to uncover is the tease. Welcome to Snow Blossom House.

Snow Blossom House is a place to feel the chill of cold hard pornography in the midst of a blinding pink snow petal rain. Snow Blossom House breathes in and exhales the romantic fantasies of fifteen year old Japanese girls who build web sites like "Carrot House" and "Strawberry House" to house their favorite anime characters and home drawn KISS dolls. Snow Blossom girls construct their own Snow Blossom boy dolls to undress—pale thin Goth boys with pretty dark clothes, anime boys, and sulky action heroes. Snow Blossom girls like to strip and dress up other girls. They like to pretend to be non-human, to grow tails, fur, and octopus arms. Snow Blossom House is a boy pervert protagonist in an all girls' high school, or a young hacker girl locked alone in her room secretly playing her brother's hentai games. Snow Blossom House is willful immersion into a world of uncanny cuteness and sweet dark dreams.

## .hentai

In Japan hentai videos and hentai games are developed forms of entertainment with their own sub-genres and recognized artists. Interactivity in hentai computer games, (and in other Japanese game genres), is more restricted than Western gamers are accustomed to. Freedom of perspective and movement
